PROJECT MANAGER

Role Overview

Title Project Manager (Full Time)

Location Warwick, Warwickshire, UK (Onsite)

About Raeon

Custom batteries are inaccessible for too many. From motorbikes to UAVs, boats to robotics and everything in between, we build batteries differently to enable high performance, affordable optimisation.

We're at the start of our journey. We have experience, innovation and momentum on our side.

What we're looking for

We are looking for a relentless, highly proactive Project Manager to serve as the operational engine of our project delivery team. Reporting directly to the Head of Programmes, you will be instrumental in driving projects to on-time, in-full delivery.

This is an opportunity for someone with engineering and operations enthusiasm to join a small team of doers supporting the wider business by helping proactively focus tasks and work across the design, build, procurement and programmes teams. You'll need to be as happy talking to engineers, suppliers, technicians and customers to strive for success in all aspects of project delivery.

Applicants from all backgrounds are welcome - we are an equal opportunities employer. If you're unsure that you meet the full criteria of a role - but you're interested in where it could take you - we encourage you to apply.

PROJECT MANAGER

Role Overview

Expectations

- + Strong Technical Bias: An engineering or operations background is key to the role, you might have pivoted to project management or combined technical and project work to date.
- + Relentless Execution: Your role is broad, you'll be proactively identifying and clearing roadblocks to drive projects to on-time, in-full delivery, this will involve being hands on across all aspects of the business.
- + Small Team / Fast pace: Demonstrated experience working with small teams, moving quickly with most players completing multiple roles
- + Project Governance: Experience with project management best practices, maintaining tight control over timing plans, resource allocation, risk registers, and proactive customer communications.
- + On-site Presence: To effectively drive projects on the ground, this role requires working 5 days a week on-site at our Warwick facility with some travel to support projects as required.

What we're offering

A unique opportunity to play an instrumental role at an early stage within a fast growing UK battery company. The role will be rewarding, engaging and demanding.

- + 25 days holiday per year, plus Christmas to New Year additional holiday (based on full-time).
- + Competitive salary
- + Pension
- + Flexible working and family friendly approach
- + Support with personal and career development, such as support towards Professional Registration.
- + Employee retailer discounts
- + Healthcare scheme
